

ZIBA JAMZAD, PhD
Professor Emeritus
Research Institute of Forests and Rangelands
Botany Research Division

Date of Birth: 9th July, 1950

Tel: office, 0098 (21) 44787280-85

Fax: 0098 (21) 44787300; 44796575

Cell phone: +989123845609

Address: Research Institute of Forests and Rangelands
P.O.Box 13185-116, Tehran, Iran.

E-Mail address: jamzad@rifr.ac.ir; jamzadz@gmail.com

Education: Ph.D. Botany, 2001. Birkbeck College, University of London.
MSc. Botany, 1989, Tehran University
BSc. Biology, 1973, Kharazmi University

Professional responsibilities

Head of Botany Research Division, Research Institute of Forests & Rangelands (including National Botanical Garden and Central Herbarium of Iran) 2013-2020; 2002-2008; 1992-1998.

Awards

Awards: **The selected book of the year (2013)** of Islamic Republic of Iran in Biology section (Flora of Iran, Vol. 76, Lamiaceae).

The first prize for women in science, in the field of agriculture, year 2017.

Skills & Activities

Biodiversity; Taxonomy; Angiosperms; Phylogenetics; Plant identification; Wildlife Conservation; Horticulture; Gardening; Landscape; Red List of Threatened Species; Natural Resources Conservation.

Research activities & interests

Plant taxonomy (Phylogeny, Molecular Systematic; chemotaxonomy; Palynology). Flora of Iran (Lamiaceae, Verbenaceae, Primulaceae, Dipsacaceae, Saxifragaceae, Papaveraceae, Fagaceae, Liliaceae, Iridaceae, Hyacinthaceae), Plant biodiversity and conservation; Horticulture and gardening; Landscape; living collections, establishing botanical gardens.

Scientific membership

Member of International association of plant Taxonomy (IAPT).
Member of medicinal plants association in Iran
Member of ornamental plants association in Iran
Member of IUCN Medicinal Plant specialist Group

Editorial board

Chief Editor of the Iranian Journal of Botany
Member of editorial board of the Journal of Medicinal Plants & By- Products
Subject editor of the Irannature Journal.

Languages

Farsi; English; Latin (botanical).

Book chapter

- Jamzad**, Z., Harley, M. M., Ingrouille, M., Simmonds, M. S. J., and Jalili, A. (2000). Pollen exine and nutlet surface morphology of the annual species of *Nepeta* L. (Lamiaceae) in Iran. In: M. M. Harley, G. M. Morton and S. Blackmore (Editors). Pollen and Spores: Morphology and Biology, pp. 385-397. Royal Botanic Gardens, kew.

Conference

Oral presentations

- 2017** “Molecular phylogeny of *Hymenocrater*. International symposium on Advances in Lamiaceae Science, Antalya, Turkey.

2016 “National Botanical Garden of Iran and Ex-situ conservation of rare and endangered species”. 6th East Asian Botanic Gardens Network, At South Korea Seoul.

2014 “**دیدگاه ایجاد مدل های پایدار و خلاقانه برای حفظ گیاهان زینتی**” ۱۰th International Congress of Ornamental Plants, Tehran.

2013 “Lamiaceae in Flora of Iran, a source of important medicinal plants” Second National Medicinal plants congress, Tehran

2011. “Conservation strategies for rare and endangered medicinal and aromatic plants” 18th International Botanical Congress (Melbourne)

2006 “Mapping of the distribution pattern of terpenoids on a molecular phylogeny inferred from ITS sequence data in *Nepeta* L.” 17th International Botanical Congress, Vienna.

2007 “Phylogenetic relationships of three monotypic genera of Mentheae (Nepetoideae, Lamiaceae)”. 1th national plant taxonomy conference. Tehran

Poster presentation

- 2016** Phylogenetic relationship of *Salvia* (Lamiaceae) with special focus on Iranian taxa. 2016 Botany Conference, Savana Georgia USA

2011 “Taxonomic implications of pollen morphology in infrageneric classification of *Scutellaria* (Lamiaceae)” 18th International Botanical Congress (Melbourne).

2007 “Pollen morphology of Fagaceae” 1th National Plant taxonomy conference, Tehran.

Projects

- Investigation on conservation status of species and habitats of Iran
- Enrichment of species diversity in National Botanica Garden of Iran
- Flora of Iran (Dipsacaceae, Saxifragaceae, Primulaceae, Verbenaceae, Lamiaceae)
- Collection and identification of provincial flora and establishment provincial herbaria
- Preparation of provincial flora of Iran
- Development of National Botanical Gardens of Iran
- Study of antioxidant activity of *Salvia* spacies

Thesis supervision

- Biosystematic study of subsection Basilica in the genus *Ocimum* (MSc, Kharazmi University)
- Landscape design for Arboretum in National Botanical Garden of Iran (MSc, Tehran University).
- Landscape design for some parts of National Botanical Garden of Iran (MSc, Tehran University).

Bioystematic study of sect. Cataria , of the genus Nepeta (MSc, Khaarazmi University)

Investigation on essential oil of two species from Lamiaceae and Asteraceae family (MSc, Azad University)

Investigation on essential oil of two species from Lamiaceae Investigation on essential oil of two species from Lamiaceae (MSc, Azad University).

Biosystematic study of sct. Psilonepeta of the genus Nepeta (MSc. Shahid Beheshti University)

A pharmacognostic stuy of Nepeta gloacocephala (Pharm D, Tehran Univerity).

Design for conference centre of National Botanic Garden of Iran (MSc, Tehran University)

A study of alg flora of pools in National Botanical Garden o Iran (MSc, Azad University)

A taxonomic study of the genus Vitex in Iran (MSc, Pyam Noor University)

A taxonomic study of the genus Stachys, (MSc, Tehran University)

A morphological an anatomical study of bulbs in the genus Tulipa (MSc, Alzahra University)

A cytotaxonomic and palynological study of the genus Scilla (MSc, Alzahra University)

Ecological study on different populationa of Artemisia herba-alba (PhD, Tehran University)

A study on genetic diversity of the genus Satureja (PhD, Tehran University)

A systematic study on the genu Scutellaria (MSc, Payam Noor Universiyt)

A biosystematic study on the genus Origanum in Iran (MSc, Azad University)

A study on morphological variation of the genus Quercus using palynological and micromorphological characters (PhD, Mazandaran University)

A taonomical study of the genus Ziziphora (MSc, Azad University)

A taxonomic study of the genus Hymenocrater (PhD, Azad University)

A systematic study of the genus Marrubium (PhD, Eesfahan Universiy)

Molecular sytematic of the genus Scutellaria (PhD, Eesfahan Universiy)

Investigation on eveloutionary patern of the genus Salvia (PhD, Esfahan University)

Study of eco-physiological and morphological aspects of endemic taxa of *Ajuga chamaecistus* and determination of conservation status of them in Iran. (PhD, Payam Noor University.

Evaluating the tolerance of some Salvia medical species against climate change using the seed identification methods (PhD, Islamic Azad University)

Cytotaxonomic study of the genus Nepeta (Lamiaceae) in Iran (PhD, Esfahan University).
